EDUCATION

Lords Institute of Engineering and Technology <i>B.Tech. in Computer Science (Data Science), CGPA: 9.27/10</i> • Courses: Python, Java, Data Structures, DBMS, SQL, AI, Machine Learning, Web Technologies	Hyderabad, India Nov 2022 – May 2026
MS Junior College <i>Higher Secondary Education, 87.7%</i>	Hyderabad, India Jul 2020 – Aug 2022

Data Science Enthusiast and Aspiring Data Analyst pursuing a B.E in Computer Science (Data Science). Proficient in Python, SQL, Power BI, and Tableau with practical experience in data preprocessing, visualization, and machine learning. Passionate about leveraging data-driven insights to solve real-world problems and support decision-making.

PROJECTS

Big Data Job Analysis Python, Power BI, Big Data Tools - Performed large-scale data analysis on 100K+ job listings to uncover hiring trends in the tech industry. - Utilized Python for data cleaning, preprocessing, and trend extraction, leveraging Big Data tools for efficient handling of large datasets. - Designed an interactive Power BI dashboard with real-time filtering to visualize top-demanded roles, in-demand skills, and salary insights
Customer Segmentation Analysis Python, Machine Learning - Applied K-Means clustering to segment customers based on purchasing patterns and demographic data. - Performed data cleaning, preprocessing, and feature scaling using Pandas, NumPy, and Scikit-learn. - Visualized customer clusters with Matplotlib and Seaborn to identify behavioral trends and actionable business insights. - Created a video demo explaining the model workflow, cluster interpretation, and results
Leveraging AI and ML to Enhance Glycemic Control in Diabetes Python, Scikit-learn, Pandas - Developed machine learning models to predict and improve glycemic control among diabetic patients. - Applied regression and clustering techniques to analyze patient health data and uncover glucose level patterns. - Improved model accuracy by 15% through feature engineering, hyperparameter tuning, and cross-validation
Digital Footprint Risk Analyzer Python, Scikit-learn, Streamlit, Pandas, Plotly - Developed a machine learning-based system to analyze user digital behavior and predict privacy risk levels.. - Built classification models and implemented explainable AI to identify key factors affecting digital privacy risk. - Designed an interactive Streamlit dashboard with user login, risk visualization, recommendations, and history tracking.
Supply Chain Optimization System Python, SQL, Streamlit - Developed an end-to-end supply chain analytics system to forecast demand and optimize inventory using EOQ and Reorder Point models. - Built an interactive dashboard for demand trends, forecasting, and automated reorder decisions using Python, SQL, Prophet, and Streamlit.

INTERNSHIPS / TECHNICAL TRAINING

Intern Certify <i>Web Development Intern:</i> • Developed and optimized responsive websites using HTML, CSS, and JavaScript, reducing page load time by 30%. • Enhanced user experience by adding interactive DOM elements, increasing average session time by 25%. • Collaborated with developers on GitHub, reducing merge conflicts by 40% through structured branching strategies. • Delivered production-ready modules across 3 live projects, meeting strict client deadlines.	Hyderabad, India Oct 2024 – Nov 2024
--	---

Excelerate

Data Analyst Associate Internship (Virtual) |

Apr 2025

- Performed data cleaning, transformation, and visualization using Excel and Power BI.
- Analyzed business datasets to identify key performance indicators and emerging trends.
- Developed interactive dashboards and reports to support strategic decision-making and data-driven insights.

TECHNICAL SKILLS & CERTIFICATIONS

Programming Languages: Java, C, Python, JavaScript, HTML, CSS
Databases: MySQL
Frameworks & Tools: OpenCV, Git, GitHub, Power BI, Jupyter, VS Code
Core Competencies: Data Analysis, Machine Learning, API Integration, Web Development, Power Query
Certifications: Artificial Intelligence, Machine Learning & Deep Learning, Power BI, AI Prompts
Data Analysis and Visualization: Pandas ,NumPy, Matplotlib, Seaborn
